There is a chilling thesis out there. A chilling thesis that Richard Allgire pointed out to in one of his videos with Jean Claude towards the end, if I recall correctly, very briefly. A scary thesis that Clif High probably believes and avoids to talk about,

The Great Leaving

This is sensitive content. You are advised.

He pointed out to "something binary", something that made me think about the alleged graphene and self-asembling nanobots under certain conditions, in some of the covid-19 injections. Back in the day, this was a laughable ridicule

hypothesis, obviously product of a psyop or of evil and/or crazy entities who wanted to pollute the public discourse.

Well, time to think again.

In this analysis, the "Binary activation --> Great Leaving" (BGL from now on) thesis is laid out by Allgire and Clif High. And we

proceed to offer evidence towards it, but it has already been posed by these authority figures with a proven astonishing track record.

And, before offering such more observational empirical evidence, I would like to offer a coherence snippet of evidence, in other words...

Something that would fill the gap on certain astonishing unexplained events and would make you think

"Ah shit, that makes sense..."

- Coherence Evidence:

The globalists/elites paid a huge price for employing ~13 billion injections into humanity. Before such event, conspiracy

theories and resistance movements where mostly dormant, they were very scarce and polluted, the internet was still relatively primitive, and the first world (Europe/US/China/Russia) was mostly at peace. Everything felt in equilibrium, despite life being economically inaccessible.

But then, covid happened. And then, the AI revolution happened, posing a menace to your stable income, as it threatens to take your job leaving you behind with a sad UBI at most, and

hence your livelihood and that of your loved ones.

Those two events were greatly destabilizing.
And therefore, if they were to be carried out, is because the payment they would make towards the elites is worth it. The cabal, so to speak.

Especially covid kickstarted a lot of mental illnesses, mistrust,and in essence the whole The Great Awakening thing.

Why take that risk?

What payment could make it worth it? Really few people died out of covid. Was it a mistake? They make few mistakes at the technical levels...

They want control, and the best way to take it is via military action, as US already shown for 100 years, threatening to take your life.

What if the injection was the ultimate mechanism towards this end? The final way to achieve leverage, control, under the thing most of you value the most, your own life?

If they really had a way to kickstart your death, then that would explain why to make such a fuzz in 2020.

That's the coherence evidence I wanted to share. That would fill the gap. The thing they got in exchange of kickstarting The Great Awakening, was the ability to swiftly kill most of the people who were injected. That's the hypothetical explanation. What about the empirical facts?

These videos are such:

I - Reese Report tinyurl.com/484xvu7e
II - The Peoples Voice report tinyurl.com/5f4zppr7

Once I and II are put together, especially the 06:50-08:40 part in II and the 13:25-16:20 part in II, the BGL theory acquires a more factual hypothetical

representation, which is that of the viral mix mentioned in such videos, especially Marburg. Take into account that 06:50-08:40 dates back to 2022.

And this would also explain partially why such a big fuzz to put 5G everywhere - we didn't need it tbh. And sadly, Starlink.

Now, I want to share what is Marburg.

III - What is Marburg?

long vid tinyurl.com/yckbeszn

IV - Recent news tinyurl.com/5x3uafe9

What is the meaning of IV? It points out to support a lot the probability of BGL-Viral Mix theory.
The "Disease X" news that were reported in October-November-December in Congo and Rwanda, coincidentally while Gates was around there and around the time (Dec 3) Biden gave a suspicious support package to Kenya? (Africa) of 1B$, would be the trial phase of the binary activation.

It seemed it would have worked out. The BGL theory seems to be manifested now with a good degree of coherence in the "Viral Mix" form, as explained in II.

BGL-VM from now on.

Now, maybe this mysterious report of Hotez acquires another light to it.

Now, maybe The Economist 2025 acquires another light to it... You can look up the original one "The Economist 2025 - The World Ahead"

Why so much bird flu drama rn? Quad-demic? California emergency state? Forced masking again? Already speaking of antivaxxers? There is no bird flu epidemic yet! Why so many regulatory movements in Europe and Japan around it since 2023???

in there a massive biochemical attack could be blamed on the other band, while indeed always having been "an inside job", literally.

This is quite frightening, to be honest. Especially, once taking into account the upper right corner of TE 2025 cover, where a demon seems to be

next to a portal, being invoked. And taking that into account with the Pope we have, who was already exposed in Mouthy Budha's most watched videos, and in recent TPV ones, and The Rapture links to CMEs... And more evidence... Well all this is chilling, it could be soon, so make

peace with the higher being who we all represent. Not a Christian, Muslim or Jew good, but the God in the Christopher Langan's worldview. The one who wrote and execute's this simulated reality of ours code. The one we approximate in our spiritual evolution.

This is why you have

Marburg (German pronunciation: [ˈmaːɐ̯bʊʁk] or [ˈmaʁbʊʁk]) is a university town in the German federal state (*Bundesland*) of Hesse, capital of the Marburg-Biedenkopf district (*Landkreis*). The town area spreads along the valley of the river Lahn and has a population of approximately 76,000.[3]

Having been awarded town privileges in 1222, Marburg served as capital of the landgraviate of Hessen-Marburg during periods of the 15th to 17th centuries. The University of Marburg was founded in 1527 and dominates the public life in the town to this day.

Marburg is a historic centre of the pharmaceutical industry in Germany, and there is a plant in the town (by BioNTech) to produce vaccines to tackle Covid-19.[4]

History

Still not scared?

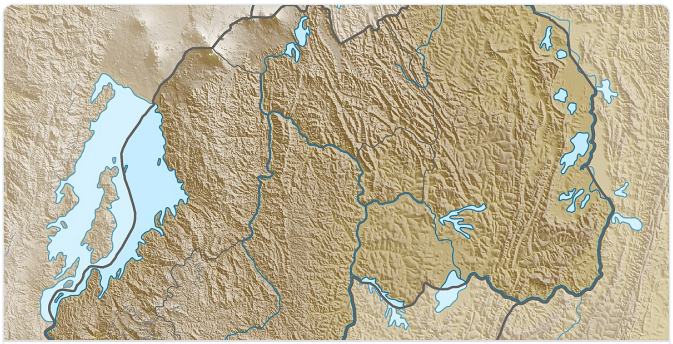
Do you recognize the first three viruses he talks about?

...

Yes: Covid-19, Influenza, RSV, which are the first four of the damn "quad-demic". What follows is Marburg and Ebola.

Just another coincidence most likely...https://rumble.com/vv0m8s-dr.-zelenko-drops-a-quick-biology-lesson-with-major-national-security-impli.html

And, down below there is an extra chilling thing:



Rwanda Marburg virus disease outbreak - Wikipedia

https://en.wikipedia.org/wiki/Rwanda_Marburg_virus_disease_outbreak

On 6 October 2024, Rwandan health minister Sabin Nsanzimana confirmed that the country had received about 700 vaccine doses to be used in trial, which will be distributed on a priority basis starting with healthcare workers, the frontline response team and individuals who were in contact with the confirmed cases.[34] These trial vaccines were delivered by the Sabin Vaccine Institute as a support by the government of US and international partners.[35] As of 14 October, more than 200 people have been vaccinated.[36]

On 31 October 2024, the Sabin Vaccine Institute dispatched 1,000 additional investigational vaccine doses for a randomized clinical trial arm within an ongoing open-label study.[37][38] As of end of October, more than 1,500 frontline workers had been vaccinated in Rwanda with the Sabin vaccine.[38]

I really pray for the 4th one being the Norovirus bro...

hey idk "norovirus" is most searched in Google trends in UK, USA and Ireland... but 4 weeks ago it already was causing havoc in UK

WTF Rwanda is next to Congo and this "Disease X" https://www.youtube.com/watch?v=jjvroVdkYPo in here is clearly this one due to the physical-temporal proximity... https://www.youtube.com/watch?v=CKCtIlWWHSY

"Bleeding Eye Virus", "Disease X", ... just call it the way it is: Marburgvirus. And Biden was in Angola Dec 3.

Given all this, I theorize the following speculation:

they'll sue the quad-demic to eventually hide a Marburg epidemic till the very last minute,

and by then it is too late and most of those Pfizer-Moderna peeps in Europe/US would fulfil Deagel's report

Maybe they'll blame UAVs
This is why they wanted their quad-demic: the flu/RSV/C19 symptoms together with the Norovirus symptoms are exactly the Marburg symptoms depicted at 00:59 in

The Marburg-Ebola epidemic would be activated by the 1-minute pulses triad on demand Todd said.
